

# First Things First

## Neon Trees

You are never gonna get  
Everything you want in this world  
First things first  
Get what you deserve  
It began when I was twenty-one years old  
And my mom and dad were begging me to go  
So I left a note and we went and hit the road  
Me and Chris and all the stuff I own  
I went out to find my soul and left the only comfort that I'd known  
It wasn't 'bout a girl or even California bleeding  
It was all about me choosing where to go  
And I sing  
You are never gonna get  
Everything you want in this world  
First things first  
Get what you deserve  
You are never gonna get  
Everything you want in this world  
First things first  
Get what you deserve  
There were years I felt like everything was new  
Long before the troubles of my youth  
There were days and nights I couldn't see the end  
And I swear the music was my only friend  
You learn to lie about forgiveness  
When you choose to let down all your pride  
I don't wanna be so famous  
I just want to sing until I die  
So sing it  
You are never gonna get  
Everything you want in this world  
First things first  
Get what you deserve  
You are never gonna get  
Everything you want in this world  
First things first  
Get what you deserve  
When I wish upon a star  
I'll tell it how I got this far  
It began when I learn how to face myself  
And I'm still deciding if I'm something else  
I'm a million different people all the time  
But there's only one of me to get it right  
I'm gonna get right  
Oh oh, I'm gonna get it right, I'm gonna get it right  
Oh oh oh  
You are never gonna get  
Everything you want in this world  
First things first  
Get what you deserve  
You are never gonna get  
Everything you want in this world

First things first  
Get what you deserve You are never gonna get  
Everything you want in this world  
First things first  
Get what you deserve You are never gonna get  
Everything you want in this world  
First things first  
Get what you deserve
