

ANGELA RIPPON:

Crass

We burn our mistakes and we watch as they burn.
We've been here so long, we've got nothing to learn
And we put all the nastiest bits in your media bag

Kenneth Kendal

Robert Dougal

Richard Baker

We put all the nastiest shits in your media bag
Feel pretty solid, can move pretty smooth
Yeah, but I'm learning I've got nothing to lose
And you put all the nastiest licks in your media slag.

Fucking watch out
I am about, I can

And I don't have to pretend anymore
