

China

Sammy Hagar

Floatin' on a sea of mystery
A driftaround came unknown
But that China wind keeps callin' me
It knows where I wanna go
Oh China, I can hear you call
China, I can hear you call
You see, I really don't have the choices
My life is torn between lovin you and them
So, I pretend to chart my courses
But I listen to that China wind
Oh, China, ooh China, yeah China my friend
You're a little wrapped up inside a mystery
Yea, you are, China come again
And long, long ago I once had the power
To levitate the world with just my will
Yea, but I must gone wrong
That feelin's long gone, I belong to the China wind
Oh, China, ooh China, yeah China my friend
You're a little wrapped up inside a mystery
Yea, you are, China come again
Oh yeah
