Not Over

Paul Oakenfold

Time to say goodbye, it?s time to make a move
Nothing left to hide, everything to lose
There is not a day I wake, not a step that I take
When I don?t see your ghost, I think you should know
It?s time for both of us to put aside our past
We?re looking forward now, strong enough to last
There?s not a night I sleep, not a dream that I keep
If I don?t see your face, it?s you I can?t replace
You?re running through my mind
Baby all the time, it?s not over yet
Deep inside my soul
This I know for sure, it?s not over yet
You?re running through my mind
Baby all the time, it?s not over yet
Deep inside my soul
This I know for sure, it?s not over yet
Every single night I dream of love
Every single day I?m thinking love
With every thought of you I?m still in love
Don?t say goodbye 'cuz it?s not over yet
(Every night, every day)
Not over yet
(Every night, every day)
You?re running through my mind
Baby all the time, it?s not over yet
Deep inside my soul
This I know for sure, it?s not over yet
You?re running through my mind
Baby all the time, it?s not over yet
Deep inside my soul
This I know for sure, it?s not over yet
