White Girl

American Heartbreak

Don't want to be a slave
Don't want to be confused
Don't want to be a whore
Don't want to be like you
Can't you see you're strangling me
Don't you know you're strangling me
Can't you see you're strangling me
Can't you see
So come on down, it's the end of the world
You see me, I see right through you

Poor little rich girl, poor little girl
Poor little rich girl
Sick of the world, sick of this place
And you know she loves me too
Don't want to be afraid
Don't want to be abused
Don't want to be a whore
Don't want to be like you
Can't you see you're strangling me
Don't you know you're strangling me
Can't you see you're strangling me
Can't you see
So come on down, it's the end of the world
You see me, I see right through you
(Repeat)
Poor little rich girl, poor little girl
Poor little rich girl
Sick of the world, sick of this place
And you know she loves me too
When it all comes falling down on you
When the shit falls down on you
When it all comes falling down on you
She loves me, she loves me, she loves me
(Repeat Chorus)
