Civilized

Brave Combo

I want to be civilized
I want to be civilized
I just need to know
What I need to know
How to be civilizedIt's not a word
It's a feeling
More like a thought
Than a real thing
I want to change
More than I want you to change
I want to be civilizedEveryone can be my friend
And now I've realized
All you need to understand
Is how to be civilizedIn a world of desperate acts
It's no fun to be surprised
I will only be relaxed
When I become civilized
