Cannot Hide

A-ha

Can you see me, babe
Standing in the light?
I feel your cat's eyes on me
Phosphor in the nightI'll move inside
Got those eyes
Something's burning, baby, that's alright
You and I here tonightMeet me on the other side
('Cause you can do me right)
Take me where I cannot hide
('Cause you can do me right)
Meet me on the other sideYou don't know me, girl
I'm faceless in the crowd
The things I could show you, babe
C'mon, c'mon to my cloudI'm alive and tonight
Something's falling, babe
You and I, or the sky
I can see it in your eyesMeet me on the other side
('Cause you can do me right)
Take me where I cannot hide
('Cause you can do me right)
Tonight take me to the other side
('Cause you can do me right)
