Stone Blue

American Heartbreak

Wind tearin' through the back street
I hear the rhythm of my heartbeat
Rain blowin' to my face
I'm tired of being in the wrong place
Blues knockin' on my back door
I can't jump from the second floor
Turn up the radio higher and higher
Rock and roll music set my ears on fire
When I was stone blue
Rock and roll sure helped me through
When I was stone blue
Rock and roll sure helped me through
Laid off work and I can't be free
I need some rock 'n' roll therapy
Put on a 45 and let the needle ride
Jukebox jumps and I'll be satisfied
When I was stone blue
Rock and roll sure helped me through
When I was stone blue
Rock and roll sure helped me through
Rock and roll in my soul
Got me losin' control
Let it roll, let it roll
Let it roll, let it roll
(Stone blue)
Rock and roll sure helped me through
(Stone blue)
Rock and roll sure helped me through
(Stone blue)
Walkin' on a backstreet
(Stone blue)
I hear the rhythm of my heartbeat
(Stone blue)
Pick up the beat 'n' start to run
(Stone blue)
I'll be home before the mornin' sun
(Stone blue)
Rain blowin' to my face
(Stone blue)

I'm tired of bein' in the wrong place
When I was blue, stone blue
Rock and roll helped me through
When I was blue, stone blue
Rock and roll helped me through
Turn up my radio
Turn it up, yeah, higher and higher
Turn it up, turn it up
Whoo, yeah, higher and higher
You gotta help me through
You gotta help me through
You gotta help me through
You gotta help me through
You gotta help me through
You gotta help me through
You gotta help me through
You gotta help me through
When I was stone blue
When I was stone blue
Gotta help me through
Help me through
