

How Did I Get By Without You?

[**John Waite**](#)

There was a time
When I thought I knew
 Everything about
 This great big world
 Until I met you
 Into my life
 Like a brand new sun
 Now I find my home
 Inside your eyes
Wherever you areIt's hard to say it
 Cause I hide things so good
 But you make me say it
 Like only you could
 I love you
More than any man could ever say
 I need you
 Baby let me count the ways
And I'll be hereI believe in everything you do
 So how did I get by without you
 For the longest time
 Playing games of solitaire
 Taking my wine
 But now I'm with you baby
 And I can dream out loud
 You're as pretty as a picture
And you make me so proudIt's hard to say it
 Cause I hide things so good
 But you make me say it
 Like only you could
 I love you
More than any man could ever say
 I need you
 Baby let me count the ways
 And I'll be here
