

# Let's Stay Together

## Pulp Fiction

So we, we talked about this goodbye thing, man  
And Def, I mean but I just thought man  
We had so much history together  
She was, she was with me when I was in the joint  
You know what I am sayin'? Writin' me back and forth

You know sendin' me little things that kept  
You know, me mentally and spiritually  
So man, we just, we just like forget all of that, man  
When you come too far, let's stay together
