

We Only Say Goodbye (Live Soundcheck)

Fates Warning

Today was the end of a dream
As I watched your shadow disappear
Another moment for the memory
As we lose another year Thought I heard You call my name
But you only said goodbye Always somewhere we only say goodbye
Going nowhere
We only say goodbye
There's never time to say
All the things we need to say
When it's too late
We can only say goodbye Tonight I felt your presence again
As we shared the sorrow we've always known
But I heard the distance in your voice
And I knew I was alone Tried to tell YOU my deepest thoughts
But I only said goodbye Always somewhere we only say goodbye
Going nowhere
We only say goodbye
There's never time to say
All the things we need to say
When it's too late
We can only say goodbye Across the miles
Both of us reaching we try
But it's so hard to touch
When we only say goodbye Always somewhere
We only say goodbye
Going nowhere
We only say goodbye
There's never time to say
All the things we need to say
When it's too late
We can only say goodbye Always somewhere
We only say goodbye
Going nowhere
We only say goodbye
There's never time to say
All the things we need to say
