

Dance For Me Baby

Slaughter

Let the good times roll, oh yeah
You're gettin' out of your day job, feelin' so good, oh yeah
'Cause you're on your way to a rock 'n roll show dressed to kill
But don't just stand there with your hands on
your hips

Sayin', "My, my, my"
C'mon and dance for me, baby

Won't you show me a little action? Ah, yeah

Why don't you dance for me, baby

Won't you show me a little action? Are we havin' fun yet?
'Cause if it's one thing that I want

It's just another thing that you might need

Why don't you dance for me, baby

Won't you show me a little action?
So you end up out in the parkin' lot after the show, oh no

And you're lookin' for your friends and wonder which

Which, which way did they go man?
So don't just stand there with a smile on your face

Sayin', "Why, why, why"
C'mon and dance for me, baby

Won't you show me a little action? A little to the left now

Why don't you dance for me, baby

Won't you show me a little action? Yes, much, much better
'Cause if it's one thing that I want

It's just another thing that you might need

Why don't you dance for me, baby

Won't you show me a little action?
So now, you're backstage and you want your picture in a magazine
And the band comes out of the room sayin', "What do you mean?"
So, if you read right between the lines

Yes, this really happens all the time, yes indeed
Alright, c'mon and dance for me, baby

Won't you show me a little action? Get down with your bad self

Why don't you dance for me, baby

Won't you show me a little action?
'Cause if it's one thing that I want

It's just another thing that you might need

Why don't you dance for me, baby

Won't you show me a little action? Dance for me, baby
