Off & On

Oleander

Do you hide
From the way you feel inside?
Do you rage
Can you turn the page in time?If it's on your mind it's real
If it's on your mind it's real
If it's on your mind it's real
If it's on your mindDo you take the thrown away?
Try to find a place to stay sometimes?
Thought I'd try it for a while
Justify the only reasons why I tryToo late tonight
Too tired to fight with you
'Cause it's off and on, just another song
I don't wanna hear no moreDo you fight
What you know is right sometimes?
Do you find
Any peace of mind sometimes?If it's on your mind it's real
If it's on your mind it's real
If it's on your mind it's real
If it's on your mindDo you take the thrown away?
Try to find a place to stay sometimes?
Thought I'd try it for a while
Justify the only reasons why I tryToo late tonight
Too tired to fight with you
'Cause it's off and on, just another song
I don't wanna hear no moreToo late tonight
Too tired to fight with you
'Cause it's off and on, just another song
I don't wanna hear no more, yeah
