Better Place

Various Artists - Music Brokers

Hold on, we try to live a dream
We lose the fight again
I take the promise I believe
And keep it close 'til the end
Collide, I'll start a war inside
Now stop, drop and cover me
My sense of peace is burning
Shutting down, I'm falling down
I can't believe it's happening to me
Can I give it all away
Just to get back to that better place
That better place today?
And I give everything away
'Til I get back to that better place
That better place today
Holding on, I suffer like a fiend
And try and face the day
I gotta say I'm a little relieved
To see you stay 'til the end
I try, I took the war inside
Then I, and pushed it out of me
My sense of peace is burning
Open now, I'm not falling out
I can't believe it's happening to me
Can I give it all away
Just to get back to that better place
That better place today?
And I give everything away
'Til I get back to that better place
That better place today
Now stop, I try
Can I give it all away
Just to get back to that better place
That better place today?
And I give everything away
'Til I get back to that better place
That better place today
And now it all remains the same
'Til I get back to that better place

That better place today
