

Good Enough

[8stops7](#)

U.S. prime, grade A stamped guaranteed
Just grease it up and bring on the heat
Throw it down and roll it over once or twice
Then chow down

Chorus:

She's good enough, good enough to huh!
I can't get enough, I can't get enough
She's good enough to huh!

Hey me yea I been working up an appetite
Seems like the harder I work the more my body needs
I like to open up with a little six on the half shell
Then it's 3-6-9 times

Chorus

Hey waitress you got any specials here tonight
Me and the fellas might be interested in
Rack a what

Well I'll have some of that
I'll be the first to say that I'm blind to the world
Cause I'm two days gone and I just can't see
But I ain't no fool and honey I know a good thing
And she's comin' she's comin'
So come on, come on, come on cause she's
Good, good, good enough
Good, good, good enough
Good, good, good enough
Good, good, good enough ohhh!
