

I Just Wanna Know

NF

Only time you ever call me
Is when you're feeling like
Don't no body else wanna listen
When's the last time you saw me?
You prolly don't remember that
'cause that was back when you were different
I don't wanna hear the sorrys
I'm tired of all the talking to be honest
I would rather see a different shape pass me in the hallway
Until you say a word to me maybe all I ever feel is dizzy
You don't care that you lost me
What's wrong with ya?
Got a picture of ya sitting on the dash in the car with me
Now it's in my closet with the other ones
Sittin' in the box I don't wanna open up
You took it all from me
Told me you would die for me
All you ever do is lie to me
Wish that I could say that this has come as a surprise to me
Tell me that I never took the time
And now you ain't got the time for me I just wanna know
When did you get so cold?
What happened to your soul? Don't you see me (see me)? Yeah
We used to talk like best friends
I remember that
Guess I don't know what happened to us
Now you got me questionin' what trust is
You told me you would be there for me
Yeah but you didn't really mean it, did ya?
Now you wanna jump ship
Leave me here alone, well I'm used to it
Everybody else did
Who you having fun with?
Don't tell me I don't wanna know
Every time I ask I just feel sick
You're the one that jumped in
You told me you had feelings
Now you tryna tell me that it's not true
I ain't gotta clue who I'm lookin' at

Right now
But I know the person that I'm lookin' at is not you
Yeah, they say you are who you hang with
Maybe that's the reason you been changin'
Maybe that's the reason why I'm feelin' like you dangerous
And every time we talk it feels like I'm talkin' to a stranger I just wanna know
When did you get so cold?
What happened to your soul?
Don't you see me (see me)? I thought that we were close
But now that door is closed
When did we lose control?
Guess you don't need me (need me) I just wanna know
When did you get so cold?
What happened to your soul?
Don't you see me (see me)?
I thought that we were close
But now that door is closed
When did we lose control?
Guess you don't need me (need me)
