Heartbeat

Allo Darlin'

Magnetic to me in a southern Spanish bar
Ordered another round of cheap JÃ¤germeister
I dragged myself across a chipboard dancefloor
I didn't know who I admired anymoreMaybe I should be alone
I can see my cover's blown
Skipping out of time on repeat
Just like my heartbeatI wake up early and I collapse in a heap
Thinking of the chance I missed
Last night I couldn't sleep
It's possible that I was too much for you baby
I wasn't used to being on my own maybeBut it's good to be alone
I can see my cover's blown
Skipping out of time on repeat
Just like my heartbeatShould we keep pretending this is never ending
I don't think so
They say it just takes time
This time has got me on my kneesDo you remember when we felt invincible
I'm starting to think true romance is fictional
I wish I could make you feel better in my way
Get out of this place maybe go on holidayBut it's good to be alone
I can see my cover's blown
Skipping out of time on repeat
Just like my heartbeat
