

Fear of the Knife

Skaters

In the world with the serious cases
White, white men white the clipboa
Fellings
And you're rolling around
in your minding on the ground
Felling ten feet tall
Tell me tell me, it won't hurt ar
allto your room, the waiting room neighbours
Filled with crooks and nuns and players
And the paper works stops
They don't ever wanna say die
They don't wanna hold your life
Well it's operation night
And the cold old nurse she lies
Saying eeverithin will be just fine
She knows the dark is on top
With a steady, steady hand
And the knowledge required
To mess around and end your life
End your life
Oh, well it's operation night
It's operation night
