

Stockholm Syndrome

Muse

I won't stand in your way, let your hatred grow
And she'll scream and she'll shout
And she'll pray and she had a name
Yeah she had a name And I won't hold you back, let your anger rise
And we'll fly and we'll fall
And we'll burn, no one will recall
No one will recall This is the last time I'll abandon you
And this is the last time I'll forget you
I wish I could Look to the stars, let hope burn in your eyes
And we'll love and we'll hope
And we'll die, all to no avail
All to no avail This is the last time I'll abandon you
And this is the last time I'll forget you
I wish I could This is the last time I'll abandon you
And this is the last time I'll forget you
I wish I could, I wish I could
