

Satellite

Guster

Shining like a work of art
Hanging on a wall of stars
Are you what I think you are? You're my satellite
You're riding with me tonight
Passenger side, lighting the sky
Always the first star that I find
You're my satellite Elevator to the moon
Whistling our favorite tune
Trying to get a closer view You're my satellite
You're riding with me tonight
Passenger side, lighting the sky
Always the first star that I find
You're my satellite Maybe you will always be
Just a little out of reach You're my satellite
You're riding with me tonight
Passenger side, lighting the sky
Always the first star that I find
You're my satellite
You're my satellite
