Satellite

Guster

Shining like a work of art Hanging on a wall of stars Are you what I think you are? You're my satellite You're riding with me tonight Passenger side, lighting the sky Always the first star that I find You're my satelliteElevator to the moon Whistling our favorite tune Trying to get a closer viewYou're my satellite You're riding with me tonight Passenger side, lighting the sky Always the first star that I find You're my satelliteMaybe you will always be Just a little out of reachYou're my satellite You're riding with me tonight Passenger side, lighting the sky Always the first star that I find You're my satellite You're my satellite
