Full Moon

Sandy Denny

Everybody else has gone
But you're still here with me
All the world is sleeping by and by
Through the windowpaneThe frosted light is streaming in
Full moon sailing high across the sky
Tonight is like the night when we first met
I always knew I never would forget youCome and hold me close
I miss you more than I can say
I can't remember how I pass the time
(With you away)
Wondering if you'll ever knowHow much you mean to me
I never dreamed there'd be a change of mind
Lover, this is where I want to stay
Maybe it could always be this wayI recall you said to me a long, long time ago
"Don't you lose direction in the crowd"
(I think you could)
But when I did you found me and I didn't even knowI hardly even knew
You were around and understood
I was reaching out each moment to be free
You were all those things I'd never beGentle music, rock away the sadnesses in me
Rock away my lonely yesterdays
Like pennies on the ocean
'Til no trace of them I see'Till moonlight shows no ripples on the waves
And then the clear reflection will remain
Perhaps the same reflection
Of that same full moon
