

Something Wrong

Bang Gang

I can feel what is wrong
I can do what you want
I can feel what is wrong
I can do what you want
I can feel what is wrong Can you feel what is wrong
Can you do what you want
Can you feel what is wrong
Can you do what you want
I can feel what is wrong Above all the clouds
Above all the clouds
Above all the clouds I can't cry anymore
Can you heal what went wrong
I can't cry anymore
Can you heal what went wrong
I can't cry anymore Help me to feel my soul
Help me to end it all
(Falling down)
Help me to feel my soul
Help me to end it all
Help me to end it all Above all the clouds
Above all the clouds
Above all the clouds
