

Little Bug

Gabrielle Papillon

I'm just a little bug no one even knows me
I came in on the wind, the wind my friend
My friend who lends

I come in fast and I leave in a heartbeat
I'm never taken in, I don't fit in
It's just my way

Well I haven't been this way for many years
I'll hold you to no promise, no arrears
Well I would not pass this way if you weren't here
I know this makes me weaker by the year

I'm just a little tug pulling at your heart strings
I came to settle in beneath your skin
To get my way

Calm down Moses everybody knows you
You came in on the wind, the wind my friend

Well I haven't been this for many years
I'll hold you to no promise, no arrears
Well I would not pass this way if you weren't here
I know this makes me weaker by the year

I'm just a little bug no one even knows me
I came in on the wind, the wind my friend
My friend who lends

I come in fast and I leave in a heartbeat
I'm never taken in, I don't fit in
It's just my way

Well I haven't been this for many years
I'll hold you to no promise, no arrears
Well I would not pass this way if you weren't here
I know this makes me weaker by the year

I'm just a little bug no one even knows me
I came in on a wind, the wind my friend

My friend who lends

I'm just a little bug wishin' for the small things

I came in on a whim to seek my kin

Oh take me in

They'll take me in

My long lost kin

And then I'll fit in
