

Radio Friendly Girlfriend

Collapsis

Did you think you'd be so cool?
Did you think I'd take you back? Can you hear me?
Can you hear me?
Can you hear me?
Can you even touch the ground? Can you hear me?
Can you hear me?
Can you hear me now? Pull me up
I'm not turning around
You don't have to climb so high to knock me down Pull me up
I'm not turning around
You own your bleeding hearts now If you really won the race
Did you even catch your breath? Are you running?
Are you running
Just to watch yourself fall down? Are you running?
Are you running?
Are you running down? Pull me up
I'm not turning around
You don't have to climb so high to knock me down Pull me up
I'm not turning around
You own your bleeding hearts now Did you think you'd be so cool?
Did you think I'd take you back?
If you really won the race
Did you even catch your breath, your breath? Pull me up
I'm not turning around
You don't have to climb so high to knock me down Pull me up
I'm not turning around
You own your bleeding hearts now You own your bleeding hearts now
You own your bleeding hearts now
