

Night Lies

[Nat Stuckey](#)

Load in, she's there
I am a big deal, baby
Tune up, prepare
I make a lot of money Tell her I care
You're my one and only, baby
Rock stars, small bars
I wanna love you, honey We can be all you need
Lick it up, all we're saying
We can be anything you can dream Just believe our night lies
Gimme, gimme night lies
Gonna tell you all my night lies
Gimme night lies Her eyes tell lies
This is my first time, honey
Whispers to me
You are all I need, baby She's honestly deceiving me
Dreams are free, her lies slay me
She can be all for me, set me free I believe her night lies
Gimme, gimme night lies
Wanna hear you tell me night lies
Gimme night lies Night lies
Gimme, gimme night lies
Wanna hear you tell me night lies
Gimme night lies Night lies
Gimme, gimme night lies
Wanna hear you tell me night lies
Gimme night lies
