

# Kiss Like the Sun

**Jake Bugg**

Drunk with desire, ten shots of fire  
Watching those lips  
Got my mind wrapped around the taste  
She coloured my name  
And whispered my place  
Watching her sip on my drink  
Makes it hard to look away  
My kiss is like the sun (the sun)  
And my love is for everyone  
It was all for fun  
Until I let you fall, never call  
Wasn't trying to hurt you but  
It wasn't love, it's only for a night  
Wasn't trying to hurt you  
She left a necklace on my nightstand  
You can come back  
But it don't mean we're meant to be  
It's not about you  
Look on the brightside  
I'm only saving you from someone else like me  
My kiss is like the sun (the sun)  
And my love is for everyone  
It was all for fun  
Until I let you fall, never call  
Wasn't trying to hurt you but  
It wasn't love, it's only for a night  
Wasn't trying to hurt you
