

# Cherished

## Jhameel

I said, love ain't no good unless it's cherished  
I said, love can't be good unless it's cherished, oh no  
You and me, we gotta get something understood  
We gotta separate all the bad from the good  
We gotta do all the things we thought we never could  
It's time to wake up  
Our love is on the brink  
And we've had enough time to think  
Can't you see that love can't be no good unless it's cherished?  
Oh, baby, believe me, love can't be no good unless it's cherished  
You and me, should never let nothing come between  
We gotta separate all the fat from the lean  
We got to stick together like we're a team  
It's time to wake up  
Our love, our love is on the brink, yeah  
We've had enough time to think  
I said, love can't be good unless it's cherished, no, baby  
True love, just no good unless it's cherished, ooh, baby  
Baby, baby, baby  
Now our love is on the brink  
And we've had enough time to think, yes we have  
I said, love can't be no good unless it's cherished  
Believe me, love can't be good unless it's cherished  
Oh, no good, no good, no good  
Love, can't be no good, no good, no good, no good, no good, no good  
I said, love can't be no good unless it's cherished
