

# Synergy

## The Rodeo Boys

just the way it happened  
just how the pictures have been framed  
i know you know i'm watching  
naked bleeding cold and quite insane  
it's all creepy crawley  
helter skelter in our veins  
but who are they to judge who gives or takes  
or who'll inflict the pain  
the way it's going is just fine  
and now we're coming  
you'll get yours and i'll get mine  
those things they'll never say is what we're gonna do  
god if they only knew  
synergy my love  
those blackened little secrets that we call our own  
now that the seeds have been sown  
synergy my love  
pain the primal mover  
turning twisted as it hides  
as the grip grows tighter  
scarletta domina at my side  
and the fire's blazing  
i know you like to watch me burn  
cure this restless hunger  
tie me down and take your turn
