

# Security

## The 'N Betweens

I don't know  
That the plans that I have to save  
My security  
Has never been enough for me  
You must have been heaven sent  
You showed me there's more than paying the rent  
I've been passin' hours of my days  
Selling books and things  
I've missed many years of my life  
Having securities  
And I don't know  
What is right or wrong  
Sometimes I feel  
I'd be better off without this home  
And it's a hell of a waste when you're gone  
Hording all your things for so long  
I've been passin' hours of my days  
Selling books and things  
I've missed many years of my life  
Having securities, yeah  
Sometimes I know  
That I have been told  
That I need a second job  
So I can grow old  
But I haven't lived my life yet  
And I've never been out of this set  
I've been passin' hours of my days  
Selling books and things  
I've missed many years of my life  
Having securities  
I've been passin' hours of my days  
Selling books and things  
I've missed many years of my life  
Having securities, yeah
