Unknown Brother

The Black Keys

Though I've never met you And we've spoke not a word I'll never forget you

Through the stories that I've heardFor you, unknown brother

My baby's mother's in pain

'Cause your soul is in heaven

But your memory remainsUnknown, unknown brother

I'll meet you someday

Unknown, unknown brother

We'll walk through fields where children play Your eyes shined bright

When you were a kid

Your sisters loved you

And all that you didBig brother, big brother

Don't worry a bit

Your flame has not faded

Since the day it was litYour life was joy

You're mama's only boy

And when the skies are blue

Big brother they're blue for youWe'll smile at pictures

Of you as a boy

Before you retire

To heavenly joyUnknown, unknown brother

I'll meet you someday

Unknown, unknown brother

We'll walk through fields where children play
