

# You Had Me from Hello

[Christopher West](#)

One word, that's all you said  
Something in your voice called me, turned my head  
Your smile, just captured me  
You were in my future as far as I could see  
And I don't know how it happens, but it happens still  
You asked me if I love you, if I always will Well you had me from hello  
I felt love start to grow  
The moment I looked into your eyes you won me  
It was over from the start you completely stole my heart  
And now you won't let go  
I never even had a chance you know  
You had me from hello Inside I built a wall  
So high around my heart, I thought I'd never fall  
One touch, you brought it down  
The bricks of my defenses scattered on the ground  
And I swore to me I wasn't going to love again  
The last time was the last time I'd let someone in
