

Fire (Aim Your Arrows High)

VersaEmerge

Take a look around our time's
Almost running out
Give back what you get
Uproot questions in your head

(CHORUS)

The looking-glass is clear
What you want is near
Nearly gone
Shoot out all the lights
Hold your ground we'll hit the sky
It's time you aim your arrows high
Take down all the doubt
Cast it out
Let's do it now
It's time we aim out arrows high

Sewn into your soul
This is out of out control
Be who you need to be
There's no other you and me

CHORUS

The angst you hold
Gotta let it go, let it to
Said to myself I'm so alone
But I'm never alone

I'll walk and walk to find the impossible
Yes we're hexed
Stuck in a mess
We're all such a wreck

Shoot out all the lights
Hold your ground we'll hit the sky
It's time you aim your arrows high
Take down all the doubt
Cast it out
Let's do it now

It's time we aim out arrows high

Shoot out all the lights
Shoot out all the lights

Aim your arrows high
Aim your arrows high
