Next Time

Brooke Hogan

Ah, here we goOh, I'm just lookin' for a guy
That's got some of every little thing I want
Not tryna play with my mind
I hope you do better next timeI'm just lookin' for a guy
That's got some of every little thing I want
Not tryna play with my mind
I hope you do better next timeYou thought I didn't hear about it
You thought that I wouldn't care
Why was I the last to know it
So now youre not playing fairShe told me every time you called her
How you gave her your photograph
So now Im just laughing at you
'Cause once shes gone cant have me backEverybody knows the truth, the jokes on you
Im letting go of everything we used to do
I dont even wanna think about it, sittin' home all alone I doubt it
Gotto go, pick up my phone and Im not callin' you
So please dont act surprised because I told you for the last timeSo I'm lookin' for a guy
Who can hang with me all night
Gotta know just what I like, speedin' off in his ride
End up gettin' butterflies, I hope you do better next timeSo why would I sit out on the side
'Cause Im movin' on with my life
Gotta find me a guy
Who could give me butterflies, I hope you do better next timeIts funny how now you want me, I like how the tables turn
I used to be cryin' for ya but Im no longer concerned
So now we could both be honest and I can finally be me
According to what Im feelin', Im better off bein' freeEverybody knows the truth, the jokes on you
Im letting go of everything we used to do
I dont even wanna think about it, sittin' home all alone I doubt it
Gotto go, pick up my phone and Im not callin' you
So please dont act surprised because I told you for the last timeSo I'm lookin' for a guy
Who can hang with me all night
Gotta know just what I like, speedin' off in his ride
End up gettin' butterflies, I hope you do better next timeSo why would I sit out on the side
'Cause Im movin' on with my life
Gotta find me a guy
Who could give me butterflies, I hope you do better next timeOh, I'm just lookin' for a guy
That's got some of every little thing I want
Not tryna play with my mind

I hope you do better next timeI'm just lookin' for a guy
That's got some of every little thing I want
Not tryna play with my mind
I hope you do better next timeEverybody knows the truth, the jokes on you
Im letting go of everything we used to do
I dont even wanna think about it, sittin' home all alone I doubt it
Gotto go, pick up my phone and Im not callin' you
So please dont act surprised because I told you for the last timeBaby do what I like, yeah
