

# I Live In a Suitcase

Thomas Dolby

When all the lights go down  
This dirty desert town  
Is theater in the round  
With stars instead of a crowd  
I came here the hard way and now I'm living in a suitcase  
I came here the hard way and now I'm living in a suitcase  
In a suitcase - I live in a suitcase  
Marked Rome, marked Los Angeles  
So I made, I made a home here inside of me  
Live inside me  
When all that's to be said's been said  
What's keeping you in bed  
Is a fear inside your head  
The fear of being misled  
You came here the hard way and now you're living in a suitcase  
And I came here the hard way and now I'm living in a suitcase  
In a suitcase - I live in a suitcase  
But oh, little ingenue  
I need, I need to know you will be here too  
Then I'll make my home here inside of you  
And not in a suitcase  
And not in a suitcase  
They say travel broadens the mind  
So I went over the falls in a barrel  
Oh, I found the north pole in a field of ice  
And in land of dreams...I found you  
I live in a suitcase (4X)  
Don't want to live in a suitcase  
I live in a suitcase  
Don't want to live in a suitcase  
I live in a suitcase  
Living in a suitcase
