

I'll Cry Alone

Flamin' Groovies

I knew you never wanted me that bad
You knew that you were all I ever had
Address unknown, they say
What's more, you've gone away Although the times we had were so much fun
What do we have now that they are all gone?
I wander cold, dark streets back home
The weariness picks my bones I don't know why
Love had to die
I guess I'll cry alone
