

Testify

Robin Thicke

[Intro]

Yeah

Ooh-ooh-ooh

Oh, love[Verse 1]

I was standing on a mountaintop

The sunshine smiling on my face

Breeze was taking me away

It was the perfect day, and everything changed

And I lost my father suddenly

Couldn't keep it together, my family

And all my reckless ways caught up with me

Like the tortoise and the hare

I was sleepin' when I shouldn't be

[Pre-Chorus]

I come back to you, come back

I come back to you

I come back to you, come back

I come back to you[Chorus]

I testify, I pledge allegiance to you

This love inside, it makes me come back to you

I testify, I pledge allegiance to you

Live or die, I always come back to you[Verse 2]

I lost my job and it haunted me

Me and my lady lost a pregnancy

And at my lowest, it dawned on me

I'd forgotten who I'm supposed to be

[Chorus]

I testify, I pledge allegiance to you

This love inside, it makes me come back to you

I testify, I pledge allegiance to you

Live or die, I always come back to you[Bridge]

Broken free from the chains that bind me

Like an angel with brand new wings

I can be anything I wanna be

I can love myself again[Pre-Chorus]

Oh, I come back to you

I come back to you

I come back to you, come back

I come back to you[Chorus]

I testify, I pledge allegiance to you
This love inside, it makes me come back to you
I testify, I pledge allegiance to you
Live or die, I always come back to you
