

Demons

James Morrison

I got demons, I got demons, I got demons I close my eyes and talk to God
And pray that you can save my soul
I look to you to shine a light
Before the darkness takes a hold I won't break
And I won't run
This time I won't be afraid oh I got demons
I got demons tryin' a get to me
But they'll never take me down
I'm only human
Underneath my skin the cuts run deep
I just need a little time to work em out
(I got demons, I got demons I got demons) to work them out
(I got demons, I got demons, I got demons) I got demons
(I got demons, I got demons, I got demons) I can hear them now and then when I try to make a stand
They try their best to pull me under
That's when I reach for your hand Never bow because we're all kings
We are rulers of our minds, yes we are
I know that there's an angel watching over me
I see your wings are open wide I won't break
And I won't run
This time I won't be afraid oh
We're only saved when we, come undone
It's just the way that we're made oh I got demons
I got demons tryin' a get to me
But they'll never take me down
I'm only human
Underneath my skin the cuts run deep
I just need a little time to work them out
I'm only human (I got demons, I got demons, I got demons)
I just need a little time to work them out
I got demons (I got demons, I got demons, I got demons)
I got demons (I got demons)
