Help Me Remember

Rascal Flatts

I know that you're leavin'
As soon as the sun comes through the window
There's no talkin' this over
The damage is doneThere's just too much hurt
And too much to forgive
Oh, but we both know
We weren't always like thisHelp me remember
The way that we used to be
When nothin' else mattered
'Cause you were in love with meJust for the night, one last time
One more good memory
When I look back
That's what I wanna see
Oh, help me rememberThose days that were so good
Those nights that we held, held on forever
When we weren't pretenders
We were as real as we feltOh, I don't want to fight anymore
I don't want the last thing I hear tonight
To be a slammin' door
Baby, let it be like beforeHelp me remember
The way that we used to be
When nothin' else mattered
'Cause you were in love with meOh, just for the night, one last time
One more good memory
When I look back
That's what I wanna seeThis could be the last time
I look in your eyesHelp me remember
The way that it used to be
When nothin' else mattered
'Cause you were in love with meHelp me remember
Help me remember
Help me remember
