

Help Me Remember

Rascal Flatts

I know that you're leavin'
As soon as the sun comes through the window
There's no talkin' this over
The damage is done There's just too much hurt
And too much to forgive
Oh, but we both know
We weren't always like this Help me remember
The way that we used to be
When nothin' else mattered
'Cause you were in love with me Just for the night, one last time
One more good memory
When I look back
That's what I wanna see
Oh, help me remember Those days that were so good
Those nights that we held, held on forever
When we weren't pretenders
We were as real as we felt Oh, I don't want to fight anymore
I don't want the last thing I hear tonight
To be a slammin' door
Baby, let it be like before Help me remember
The way that we used to be
When nothin' else mattered
'Cause you were in love with me Oh, just for the night, one last time
One more good memory
When I look back
That's what I wanna see This could be the last time
I look in your eyes Help me remember
The way that it used to be
When nothin' else mattered
'Cause you were in love with me Help me remember
Help me remember
Help me remember
