## Help Me Remember

## **Rascal Flatts**

I know that you're leavin'

As soon as the sun comes through the window

There's no talkin' this over

The damage is doneThere's just too much hurt

And too much to forgive

Oh, but we both know

We weren't always like thisHelp me remember

The way that we used to be

When nothin' else mattered

'Cause you were in love with meJust for the night, one last time

One more good memory

When I look back

That's what I wanna see

Oh, help me rememberThose days that were so good

Those nights that we held, held on forever

When we weren't pretenders

We were as real as we feltOh, I don't want to fight anymore

I don't want the last thing I hear tonight

To be a slammin' door

Baby, let it be like beforeHelp me remember

The way that we used to be

When nothin' else mattered

'Cause you were in love with meOh, just for the night, one last time

One more good memory

When I look back

That's what I wanna see This could be the last time

I look in your eyesHelp me remember

The way that it used to be

When nothin' else mattered

'Cause you were in love with meHelp me remember

Help me remember

Help me remember
