

# Human Touch

[Kem](#)

Verse 1 Every finger was made  
For your delight  
To follow the curve of your face  
Here next to mine  
All of your secrets are safe with me  
Can I taste your perfume  
I could just linger for days and melt with you (Chorus) We can't lose with love on our side  
And could use your affection tonight  
Love was made just for us  
Human Touch Verse 2 Watching the wind blow your hair  
Don't you wanna spoon  
In a garden of pillows we can share  
Take off your shoes  
Girl you're my favorite time of the year  
Can I kiss your toes  
Until this fever disappears  
Girl you run the show (Chorus) Oh just stay here with me  
your love is all that I need  
I just want it so much  
Human Touch Repeat chorus  
(ADLIB OUT)
