

# When The World Was Mine

## Boyzone

It never rained, the sun was always shining  
Every traffic light was always green  
There was a time when every door was open  
The universe was mine..or so it seemed  
Ever roll was seven or eleven  
That it would ever end never crossed my mind  
I was flying higher than the heavens  
Back when the world was mine  
Sometimes a man can't see  
When he has it all  
Take a look at me  
Oh how he mighty fall  
Once I ruled the earth  
Once upon a time

When I had your love  
When the world was mine  
Oh the changes I'd make if I had the power  
How could I have so much and be so blind  
But at least for a bright and shining moment  
I had you, and the world was mine  
[CHORUS]Once I ruled the earth  
Once upon a time  
When I had your love  
That's when the world was mine  
When I had your love  
That's when the world was mine
