

Angel On My Shoulder

The 69 Eyes

I wanna feel you now,
Like a thousand lies
Bleeding out of your heart,
Burning in the night
Don't wanna see you crying,
Fallen out of light
I wanna feel you now,
Like an August rain
Kissing summer goodbyes,
I wanna see your pain
Don't wanna see you crying,
Fallen out of light
I don't wanna see you crying little angel on my shoulder,
I wanna see you flying, back to heaven where you belong
I wanna feel you now,
Like a thousand knives
Digging out of my heart,

Burning in the night
Don't wanna see you crying,
Fallen out of light
Don't wanna see you crying little angel on my shoulder
I wanna see you flying, back to heaven where you belong
Don't wanna see you crying little angel on my shoulder
I said alright, gonna get you crying
Come hell or high water
Since you've been gone
Don't wanna see you crying little angel on my shoulder
I wanna see you flying, back to heaven where you belong
Don't wanna see you crying little angel on my shoulder
I said alright, gonna get you crying
Come hell or high water
Since you've been gone
Since you've been gone
Since you've been gone
