Moxy Fruvous

(Dave on lead)
Only just we two
blood in my veins
the shadow of you
Perfect as frost
on the flowers
How a country recalls
day always breaks
night always falls
Rotten fruit and bending trees
rocketships and our disease
So come with me up to the balcony
and we'll fall like paper planes
In the morning the paper will say
"Lovers fly away"
Even alone I'm your fool
I can't keep my word
the edge of the pool
Red rushing sound
in my ears
as the candles burn down
one lights the way
one disappears
Tiny portraits smashed on the floor
I can't kneel at your bed anymore
So, come with me up to the balcony
and we'll fall like paper planes
In the morning the paper will say
"Lovers fly away"
Lovers Fly Away
From the Liner:
(Dave-lead vocal, piano; Jian-vocals; Mike-vocals; Murray-vocals; Danny Levin-strings)
