

# Fuel

## Catatonia

Go tell the captain  
There's no waters left to navigate  
I sailed them all for youGo tell the engine room  
Stop stoking up the fire  
We're out of fuelDoom looms large on my horizon  
Mountain toxic, river poison  
Fools get votes in a democracyWe'll build new ring roads  
To go nowhere in particular  
Now you've passed your Highway CodeAnd make new inroads  
Into plundering the Earth  
For some more fuelDoom looms large on my horizon  
Mountain toxic, river poison  
Fools get votes in a democracyGo ask the Government  
You voted in on trust  
Where is our fuel?Doom looms large on my horizon  
Mountain toxic, river poison  
Fools get votes in a democracyDoom looms large on my horizon  
Mountain toxic, river poison  
Fools get votes in a democracy
