

# Paper Trails

## DARKSIDE

Better go and get.  
Better inside.  
Better go and get.  
Here inside.I told you I would get you.  
The back of the house.  
I told you I would find you.  
A place to go.Paper trails on a mountain.  
And fruits on a table.  
A wooden house to live in.  
A baby; take care of.The grass is green but the.  
The sun is slow.  
Better find a way.  
To get through to you.Where are you when I need you?  
Where did you go?  
How can I find you when I need you?  
Where should I go?Paper trail on a mountain.  
Better find a way.  
A big trail on mountain.  
You'll find a way.The fire outside.  
Is burning up the place.  
But you're inside.  
Burning up ahead.Paper trails on a mountain.  
And fruits on a table.  
A wooden house to live in.  
A baby; take care of.
