

# This Night

## Black Lab

There are things I have done  
There's a place I have gone  
There's a beast and I let it run  
Now it's running my way There are things I regret  
That you can't forgive you can't forget  
There's a gift that you sent  
You sent it my way So take this night and wrap it  
Around me like a sheet  
I know I'm not forgiven  
But I need a place to sleep So take this night  
And lay me down on the street  
I know I'm not forgiven but I hope  
That I'll be given some peace There's a game that I played  
There are rules I had to break  
There's mistakes that I made  
But I made them my way So take this night  
And wrap it around me like a sheet  
I know I'm not forgiven  
But I need a place to sleep So take this night  
And lay me down on the street  
I know I'm not forgiven  
But I hope that I'll be given some peace  
Some peace, some peace
