

# I Sing My Song

## Golden Earring

I Sing My Song

G.Kooymans

Through the windy foggy weather

I'll come to you no matter

How long it will take

Then I'll sing you mellow songs

About times, how it was

How we drifted upon our love

Oh I sing my song, on and on

And take you with me

in a dreamy course

I sing my song, on and on

And take you with me

no one can change our course

And you lead softly to faraway

Where seldom a glimpse will play

And then suddenly we'll fling away

There's a burning thing called fire

Makes my heart desire

So I sing my song to you

There's a burning thing called fire

Makes my heart desire

So I sing my song, on and on

So I'll sing you mellow songs

About times, how it was

How we drifted upon our love

We were floating on silver water

To find rainbows, cutting hearts

Oh, in the trees

Oh I sing my song, on and on

And take you with me

in a dreamy course

I sing my song, on and on

And take you with me

no one can change our course

And you lead softly to faraway

Where seldom a glimpse will play

And then suddenly we'll fling away

There's a burning thing called fire  
Makes my heart desire  
So I sing my song to you  
There's a burning thing called fire  
Makes my heart desire  
So I sing my song, on and on  
There's a burning thing called fire  
Makes my heart desire  
So I sing my song on and on..... to take you with me.. on fire...  
There's a burning thing called fire  
Makes my heart desire  
So I sing my on and on.
