

When Angels & Serpents Dance

P.o.d.

Rhythmically moving, emotions are rising
Quivering to music, trembling bodies in song
Go unsteadily sliding, devious gliding
So beautifully sailing and floating on
Life's real when angels and serpents dance
Life's real when angels and serpents dance
Twistedly slipping, radiant soaring
Winding maliciously, creeping, flowing
Righteous, moral and just, deceitful the creature is crawling
The guardian's flying, the dance is breathing, who's leading?
Life's real when angels and serpents dance
Life's real when angels and serpents dance
Life's real when angels and serpents dance
Life's real when angels and serpents dance

Who's leading, leading you?
Everything you say, everything that you do
Believing what is true
One must lead in the dance, who's leading you?
Life's real when angels and serpents dance
Who's leading, leading you?
Everything you say, everything that you do
Believing what is true
One must lead in the dance, who's leading you?
